IMPORTANT

FOR YOUR PETS' LUXURY HOLIDAY AT BROOKDALE

VACCINATIONS UP TO DATE ???

DOGS

A “5 in 1” vaccine plus Lepto, plus Intranasal Kennel Cough given **within the last 12 months** or we accept your Vets certificate and expiry date if a 3 year vaccination.

We do not believe over vaccination is healthy for your pet.

Also we require your dog have their annual flu vaccination (often called kennel cough - much like children schools and flu go together). We could have a dog that is a carrier of the flu virus but we would have no signs to that effect).

CATS

A Felocell CVRP or similar brand vaccine given **within the last 12 months** or in accordance with your Vets certificate stated expiry date.

BROOKDALES' HANDY CHECK LIST

Vaccination card updated and on hand to bring to Brookdale

General worming dose administered within the last 6 weeks.

Where requested deposits to confirm bookings paid by due date.

Medication where appropriate clearly labelled.

For cats – a named secure cage available.

For dogs – Your dog must have a collar and a lead on arrival. If your dog arrives with no collar we will supply you a new one at your cost at Brookdale and any bedding supplied, named.

Your contact phone number or a contact person and their phone number.
